Agent 002 configuration

ID	Name	IP address	Version	Manager	Operating system	Registration date	Last keep alive
002	agent-windows	192.168.100.30	Wazuh v4.9.0	wazuh-server2	Microsoft Windows Server 2022 Datacenter 10.0.20348.5761	Oct 29, 2026 @ 15:57:14.000	Nov 1, 2026 @ 22:41:45.000

Group: windows

Main configurations

Global configuration

Logging settings that apply to the agent

Write internal logs in plain text	yes
Write internal logs in JSON format	no

Communication

Settings related to the connection with the manager

Time (in seconds) between agent checkings to the manager	10
Time (in seconds) before attempting to reconnect	60
force_reconnect_interval	-
ip_update_interval	-
Auto-restart the agent when receiving valid configuration from manager	yes
Remote configuration is enabled	yes
Method used to encrypt communications	aes

List of managers to connect

Address	Port	Max_retries	Retry_interval	Protocol
192.168.100.10	1514	5	10	tcp

enabled	yes
delay_after_enrollment	20
manager_address	192.168.100.10
port	1515
agent_name	agent-windows
Group	windows
ssl_cipher	HIGH:!ADH:!EXP:!MD5:!RC4:!3DES:!CAMELLIA:@STRENGTH

Copyright © Wazuh, Inc.

auto_method	no

Anti-flooding settings

Agent bucket parameters to avoid event flooding

Buffer disabled	no
Queue size	5000
Events per second	500

Agent labels

User-defined information about the agent included in alerts

Auditing and policy monitoring

Policy monitoring

Configuration to ensure compliance with security policies, standards and hardening guides

General

Policy monitoring service disabled	no
Base directory	C:
Scan the entire system	no
Skip scan on CIFS/NFS mounts	no
Frequency (in seconds) to run the scan	43200
Check /dev path	yes
Check files	no
Check network interfaces	yes
Check processes IDs	yes
Check network ports	yes
Check anomalous system objects	yes
Check trojans	no
check_winaudit	no
check_winmalware	yes
check_winapps	yes
windows_apps	./shared/win_applications_rcl.txt
windows_malware	./shared/win_malware_rcl.txt

Security configuration assessment

Interval	43200
Security configuration assessment enabled	yes
Scan on start	yes
Skip scan on CIFS/NFS mounts	yes

Copyright © Wazuh, Inc.

Policies	C:\Program Files (x86)\ossec-agent\ruleset\sca\cis_win2022.yml

CIS-CAT

Configuration assessment using CIS scanner and SCAP checks

CIS-CAT integration disabled	yes
Scan on start	yes
Interval between scan executions	86400
Path to Java executable directory	\\server\jre\bin\java.exe
Path to CIS-CAT executable directory	C:\cis-cat
ciscat_binary	CIS-CAT.BAT
Timeout (in seconds) for scan executions	1800

System threats and incident response

Osquery

Expose an operating system as a high-performance relational database

Osquery integration disabled	yes
Auto-run the Osquery daemon	yes
Use defined labels as decorators	yes
bin_path	C:\Program Files\osquery\osqueryd
Path to the Osquery results log file	C:\Program Files\osquery\log\osqueryd.results.log
Path to the Osquery configuration file	C:\Program Files\osquery\osquery.conf

Inventory data

Gather relevant information about the operating system, hardware, networking and packages

Syscollector integration disabled	no
Scan on start	yes
Interval between system scans	3600
Scan network interfaces	yes
Scan operating system info	yes
Scan hardware info	yes
Scan installed packages	yes
Scan listening network ports	yes
Scan all network ports	no
Scan current processes	yes
hotfixes	yes
sync_max_eps	10

Copyright © Wazuh, Inc.

Active response

Active threat addressing by immediate response

Active response disabled	no

Commands

Configuration options of the Command wodle

This module is not configured. Please take a look on how to configure it in commands configuration.

Log data analysis

Log collection

Log analysis from text files, Windows events or syslog outputs

Syslog

File	Logformat	Ignore_binaries	Only-future-events	Target
active-response\active-responses.log	syslog	no	yes	agent

Channel	Logformat	Ignore_binaries	Only-future-events	Target	Reconnect_time
Security	eventchannel	no	yes	agent	5
System	eventchannel	no	yes	agent	5
Application	eventchannel	no	yes	agent	5

Integrity monitoring

Identify changes in content, permissions, ownership, and attributes of files

General

Integrity monitoring disabled	no
Interval (in seconds) to run the integrity scan	43200
Skip scan on CIFS/NFS mounts	yes
skip_dev	yes
skip_sys	yes
skip_proc	yes
Scan on start	yes
max_files_per_second	-
Ignored files and directories	c:\programdata\microsoft\windows\start menu\programs\startup\desktop.ini c:\windows\system32\logfiles c:\windows\system32\winevt c:\windows\system32\config c:\windows\system32\spool

ignore_sregex	.log$\|.htm$|.jpg$\|.png$|.chm$\|.pnf$|.evtx$ .log$\|.etl$|.tmp$
windows_audit_interval	60
allow_remote_prefilter_cmd	no
max_eps	50
process_priority	10
database	disk
